1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Non-elected claims 1-3 and 63-72 have been canceled.

2. The following is an examiner's statement of reasons for allowance: none of prior art of record taken alone or in combination shows a circuit for coupling an energy storage device to an output of a power supply comprising a switch including a pair of outputs coupled in series with the energy storage device to form a series combination coupled across the output of the power supply, and an input receiving a switching signal, the switch assuming a conducting state and a non-conducting state based on the switching signal being at a first and a second level, respectively, a connection receiving a voltage reference signal, a differential high-gain device including an output coupled to the input of the switch, a first input biased by a control voltage, and a second input receiving the voltage reference signal, wherein the control voltage is monotonically related to a voltage appearing at the output of the power supply so that the differential high-gain device drives the input of the switch with the switching signal at the first level when the control voltage exceeds the voltage reference signal by an input offset voltage of the differential high-gain device, and the differential high-gain device drives the input of the switch with the switching signal at the second level when the reference signal exceeds the control voltage signal by the input offset voltage as recited in claims 29-46,

Art Unit: 2838

and more detailed limitations as recited in claims 4-28 and 47-62 of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
